# The Mystic Light of the Aladdin Knights

Volume 47 No. 1

*Aladdin is The Magic Name in Lamps*

September 2018

## Aladdin Knights of *The Mystic Light* Bill Courter

### 46 years of news, history and collecting Aladdin lamps

I bought an Aladdin Corinthian Lamp for emergency light in 1965. It cost \$6.00 and was ready to light. I was "illuminated" by the *Magic* of the Aladdin light and began collecting the lamps and their history. We published two books on Aladdin lamps and history of the company: first in 1972 (revised in 1997) and 1987. I began writing *The Mystic Light* newsletter in 1973 with the goal to share discoveries, information and provide interchange among collectors.

Tom Teeter suggested the name for our newsletter, taken from the original "Order of Aladdin Knights of Mystic Lights". Aladdin company personnel were recognized in *Mystic* ceremonies over 100 years ago. Officials were appropriately called "High Mogul, Bright Knight, Inner Guard, Restless Knight and Good Knight." Collectors today create their own unique "handles" such as Bright Knight, Chimney Knight, Dim Wick, Sage and Sir Lamps A-lot.

Collectors who subscribe to *The Mystic Light* are called Aladdin

Knights—the finest group of Aladdin and lamp collectors in the world! Aladdin Knights have lived in all 50 states, Canada, England, Germany, Australia, New Zealand, Scotland, Holland, Italy and other countries. More than 9,500 Lifetime Knights have been assigned during the past 46 years.

The Aladdin Knights first gathered at the Nashville Flea Market in 1973. The convention term Gathering was created in 1976, General Knights in 1980 and Knights of the Roundtable in 1987. The first Genie in 1976 and first logo in 1977.

The first auction was held in 1977, first Majestic Pin in 1978, the first raffle quilt in 1979 and the first regional meet was held in Pennsylvania in 1979.

Gatherings are run by volunteers and financed via registration, auction and admission fees, raffle of quilts by Ladies of The Knights and sale of memorabilia.

The success of Gatherings is attributed to unselfish dedication of time, energy and expertise of Aladdin Knights who plan, organize and conduct the activities and events. No one is paid. Knights carry out and perform many functions at their own expense. Their reward is enjoyment of their hobby, making new friends, preservation of historical lighting and sharing their knowledge with others. And fun!

## Light Beams

This newsletter begins our 47<sup>th</sup> year of writing *The Mystic Light*. That sounds like a long time but how did those years fly-by so fast? I believe the enjoyment of collecting both lamps and friends are reasons. And contributing to history.

X X X X

The 46<sup>th</sup> Gathering in Peoria was another memorable event. I am pleased to report activities, auctions, and photos of those who "made it happen." Everyone loved the hotel, the open center area, and the breakfast included in registration.

X X X X

We honored Sue Wood for her years of dedication and service as Signmaker KRT (page 9). Sue drove to Peoria by herself and arrived Saturday at an intersection where she became confused. An accident damaged her car. On Sunday we drove her home to Philo. Thanks to Bob Daniels who picked up her car and transported it to her home in Philo.

X X X X

I was deeply honored and surprised to receive the LeRoy Thwing Award by the Rushlight Club at their Friday Dinner in Peoria.

X X X X

I serve on the Board of the William Rogers Clark Market House Museum in Paducah. We celebrated 50 years since founding in 1968. The week after Peoria our banquet ceremonies recognized those who made it possible. I was pleased to prepare the program and historical booklet.

X X X X

Our power was off for nearly two days due to storms end of June. Life without electric lights, computer and TV was like the "good old days." We lighted lamps and our Aladdin emitted 2000+ BTU at temperatures already excess 80. UGH! We used flashlights too of course, and went to bed early.

X X X X

**The Honey Mushroom in Oregon is the largest living thing on the planet. On the surface, you would assume they are each separate and individual. However, they are all connected and form part of the same humongous organism. This giant mushroom is 2400 years old. It is actually all connected by a root system that stretches 3 square miles.**

[www.pbs.org/video/oregon-field-guide-humongous-fungus..](http://www.pbs.org/video/oregon-field-guide-humongous-fungus..)

You might think we are all separate individuals. However, we come together as human beings who collect Aladdin lamps. Although we are independent on one level, we react and respond differently but also collectively. It is this same complex structure that connects all of us. The stories, experiences and friendships of collecting are the real reasons we enjoy our Aladdin lamps.

### Welcome New Knights:

## LeRoy L. Thwing Award The Rushlight Club

Donna Schoenley, President Rushlight Club, presented this award for outstanding service and contributions to the club and stimulating interest in history of lighting. The Club, formed in 1932, is the oldest lighting club. I am humble and proud to be recognized with the LeRoy Thwing Award by The Rushlight Club. An honor indeed! The Rushlight Club publications and members have been important as I study lamps & lighting. I am pleased the Rushlight Club joins with Aladdin Knights for their summer meeting at our Gathering.

She was found in my mother's house, and had passed in her sleep (she bought mom's house from the rest of us a few years back). Jane, like the rest of us, chose to keep some of mom's Aladdin lamps, and even added to her own collection after mom died. We remaining siblings have split her lamps up amongst us, and are enjoying them. Jane received mother's Knight Number, and now I would like to have it passed on to me." Yes, requested granted and honored.
